WORK HISTORY

Jan 2022 - Current

Front End Developer

Personal Project - Accra (Remote)

- Created a portfolio using React bootstrap and ReactJS. www.stephanieodoom.com.
- Created a workout web application. <https://actifitness.netlify.app/>
- Collaborating with back-end developers to create an ERP system to manage business.
- Enhanced user experience by designing intuitive and visually appealing interfaces for website and mobile

applications.

- Created style guides and design systems to maintain consistency across all platforms and products.
- Improved website loading speed by optimizing images and graphics for better overall performance.
- Consistently met project deadlines by managing time efficiently and prioritizing tasks according to importance levels.
- Used wireframes, mock-ups and prototypes to establish user interface design and architecture.
- Assisted in the development of reusable code libraries, streamlining the coding process and increasing productivity within the team.
- Enhanced user experience by optimizing web applications for maximum speed and scalability.
- Developed functional and appealing web applications based on usability, resulting in increased customer satisfaction.
- Coded using HTML, CSS and JavaScript Frameworks to develop features for both mobile and desktop platforms.
- Spearheaded production of page content such as visuals and text copy to meet project specifications.
- Implemented SEO strategies into front end development practices, improving search engine rankings for client websites.
- Worked closely with UX/UI designers to translate their designs into functional web applications.
- Utilized version control systems such as Git to track changes throughout the development process.
- Developed user-friendly web forms with validation and error handling.

Jan 2020 - Mar 2024

Pharmacist Manager

Stereda Pharmacy - Accra

- Improved patient outcomes by implementing efficient medication therapy management practices.
- Implemented version control and continuous integration (CI) practices, reducing code conflicts by 6% and improving collaboration efficiency.
- Enhanced patient safety with thorough medication reviews and drug interaction assessments.
- Designed prototypes for company websites.
- Spearheaded development of software tools aimed at optimizing medication management, including medication adherence reminders, leading to 34% increase in patient adherence rates.
- Provided training and support to healthcare professionals on effective utilization of healthcare technology, including ReactJS-powered applications, improving user proficiency and reducing learning curves.
